

Make Your House A Home

If you would like to have a home filled with personality and one-of-a-kind treasures, custom framing can help you do exactly that. Many people have things like art, photos and diplomas framed, but there is so much more that can be done! In fact, nearly anything can be framed. A custom framer can create special frame designs to address your unique style, space and colour scheme.

Most of us hang onto objects that came from special moments in our lives. They may be family heirlooms passed down from parents, something relating to the sports or hobbies we love, or souvenirs brought back from a wonderful trip. These items framed and put on a wall allow us to enjoy them each and every day. They are what transform our house to our home.

An autographed Jeff Healey album, guitar picks, concert tickets and music schedule needed to go into an extra special shadow box frame. The devoted Jeff Healey fan said he wanted these items all framed together and he wanted it to be "wild."

I love this type of challenge ...

Step One: Define "WILD"

Step Two: Hand-polished black lacquer moulding by Roma Moulding's Moda Collection in black, gold and turquoise exotic veneers surrounding a large black rag mat, individually cut openings for each collectable. A black spacer is necessary to install to allow clearance and air space. Tru Vue Museum glass, assemble and done.
