

# HELPING TO KEEP OUR WORLD PICTURE PERFECT

by: Picture It Framed

Responsible picture framers are committed to taking steps each day to ensure they are making a difference in protecting the future of our natural resources. As part of that commitment, we are proud to offer certified forest-friendly Larson-Juhl frames and matboards.

Keeping our environment healthy and picture perfect for future generations takes the commitment of individuals all working together toward a common goal. Recycling and waste management is a big part of our efforts to frame a beautiful future for our world.

We strive to do our part in taking care of the planet. Larson-Juhl, one of our main suppliers, is careful in its selection of wood suppliers to ensure the wood is harvested from well-managed forests. Larson-Juhl has also earned both PEFC and FSC certifications and is using wood carrying these designations whenever available. These third-party certifications provide verification that our purchasing processes are responsible. This important third-party certification provides you, the consumer, with confidence that you are purchasing forest-friendly frames and demonstrates the commitment to responsible forest harvesting. Larson-Juhl has a long history of environmental responsibility, both in the selection of wood suppliers and in the manufacturing processes. Sustainability is defined as meeting the needs of the present without compromising the ability of future generations to meet their own needs.

We carry forest-friendly frames and matboards by Larson-Juhl. We are committed to working with organizations that are looking at the environmental, social and economic impact of the decisions made to our future and that of our planet.

*Picture It Framed is located at 3047 Dundas St. West (1/2 block west of High Park Ave.). 416-762-1221*
